

KoMoMix+

A REVOLUTIONARY BLENDER

MADE IN AUSTRIA

**Just another
blender?**

NO, NOT REALLY.

THIS ONE IS DIFFERENT.

Totally different.

Made in Austria

FAIR AND SUSTAINABLE

- Manufactured completely in Austria
- We support local companies
- Our materials are as sustainable as possible, e.g. our wood is certified
- Fair loans
- Short transport ways
- We save packaging materials wherever we can

A LOOOOOT of POWER

- 30,000 rpm
- 1,400 watt motor
- eight-blade cutting assembly
- for the easy and fast making of smoothies, ice cream, spreads, nut puree, marinade and more
- cuts and crushes nearly everything and detaches the most important parts of the ingredients.

Beautiful DESIGN

SIX AWESOME COLORS

Most of our kitchen helpers are really ugly or at least boring. But why not make something useful AND beautiful? The KoMoMix+ comes in 6 awesome colors, and in combination with the solid beech wood housing it's a beautiful machine, isn't it?

Innovative MATERIALS

BEECH WOOD HOUSING

Why always use plastic or metal, when there's other great – and more sustainable – options, like real wood? By the way, the wood also keeps the noise down.

The KoMoMix+ is the only blender in the world with beech wood housing!

Innovative MATERIALS

REMOVABLE CORK HANDLE

Cork is a great material, so we thought: Why not use cork instead of plastic? And the best thing is: You can remove the cork handle to put the container into your dishwasher. Feels good, cleans good.

- Removable eight-blade cutting assembly for easy cleaning
- Simple operation by one-touch-button with integrated pulse function
- 1.7 l BPA-free tritan pitcher
- Stirrer also included

**So easy
to USE
& CLEAN**
YOU DON'T NEED MORE

Just the best QUALITY

WE LOVE PERFECTION

We don't like bad products ourselves, so why sell bad products? The KoMoMix+ has been totally reinvented from the scratch, we put a lot of work and thought into it – and only the best quality for every single part used. The product is assembled completely in Europe. And yes, we could produce much cheaper. But we want the very best in EVERY aspect.

[illegible]

SUM UP

- First blender with a solid beech wood housing, innovative materials used
- Made in Austria, fair and sustainable
- Fantastic design, in 6 colors
- Best quality, long lifecycle
- Awesome craftsmanship
- 3 years of development, reinvented from the scratch
- Removable cork handle
- Removable eight-blade cutting assembly
- Supereasy to handle and clean, one-touch button, integrated pulse function
- A lot of power
- Fantastic selling price

KoMo - CRAFTING since 1985

We don't only produce blenders. We've been designing and producing grain mills for more than 39 years. Our passion and know-how drives the development of our mills – and there's one thing we're certain of: our mills deliver. We're so convinced of the quality of our mills, each one comes with a 12 year warranty. Discover more on www.komo.bio.

Contact us!

We will deliver the KoMoMix+ from April 2018 worldwide. Don't hesitate to contact us!
